Spring is here and we are starting to see an increase in outdoor activities.

Respect Wildlife & Keep Your Distance

We remind you to be #BearWise this spring! As bears wake up from hibernation, they are likely to forage for food in garbage cans and bird feeders. To avoid human-bear interactions, we encourage you to remove bear attractants from your property.

To report bear problems call: 1-866-514-2327

Along, with bears North Frontenac has many other wild animals that live in our Communities, such as, Moose, Deer, Wolves, Coyotes, Foxes, etc.

- View all wildlife from a distance
 - Do not feed wildlife
- Snap and Go—stay in your vehicle
